

11.8" V4 MLOK Rail

Installation Guide:

WARNING: DO NOT OVER TIGHTEN ANTI-ROTATION SET SCREWS.

Barrel Nut Torque: 50 Ft-Lbs

Barrel Nut Fasteners: 30 In-Lbs For outer bolts and 40 In-Lbs for inner bolt / Cam Nut

Anti-Rotation Set Screws: Tighten until contact is made with upper receiver. **DO NOT OVER TIGHTEN.**

Barrel Nut Wrench Size: 1-3/16th Inch Crows Foot Wrench

We Recommend a small amount of Loctite 243 Threadlocker on the Barrel Nut Cross Bolts and Anti-Rotation Set Screws. We also recommend a small amount of Copper Based Anti-Seize (Loctite 8008) on the Barrel Nut Threads.
